THE SMALL PRINT:

- * Our design questionnaire is a vital cog in the design process. It will highlight relevant and necessary questions about your brand, customer/target audience, goals, brand tone of voice, values and missions etc. This should be filled in as much as possible before commencing any design work, to ensure an accurate brief if set from the start.
- ** Our brand guidelines 'mini-style-guide' pack and comprehensive style-guide are an overview of how your new branding should and should not be used. This includes font and colour usage, logo do's and don'ts, safe areas, print and web safe fonts, image usage etc. This ensures that your awesome new branding will stay consistent and you won't compromise the quality of it by misuse.
- ^ We've chosen the most popular quantities for our printed items, however, if you would like different quantities or stock type just ask and we'll provide a new print quote. The costs above are based on standard white silk stock (paper/card) and 2pp (double sided) artwork. Delivery will be charged extra.

All prices are subject to 20% VAT. All packages require a 50% deposit before work commences, with the remaining 50% due on completion.
